Pictorial Survey of the 2015 Professional Seminar

Amazing Virginia sky. Courtesy Tom Pickens

This survey includes photos by Tom Pickens, Mike George, and myself, Rosanna Schaffer-Shaw. Many thanks to Tom Pickens for supplying most of the pictures. I think that photos are the best possible way to show the non-attendees what went on during the Seminar and give them the feeling of being there. For the attendees this will be a stroll down Memory Lane. Overall this was a very happy meeting filled with *gemütlichkeit* and overall goodwill. Everyone basically got along so well.
